

# SAFETY DATA SHEET

Multisciences Rat CCL5/RANTES ELISA Kit

# Section 1. Identification

GHS product identifier Code: Multisciences Rat CCL5/RANTES ELISA Kit, EK3129 Other means of identification: Not available Trade name: Rat CCL5/RANTES ELISA Kit Supplier/Manufacturer 108 Xiang Yuan Road, Gongshu Intellect Information Industry Park, Hangzhou

In case of emergency: Multisciences: 400-6721-600

# Section 2. Hazards identification

Section 2. Hazarus luent	incation	
OSHA/HCS status:	Multisciences anti-Rat CCL5 detect antibody(100X) Multisciences Rat CCL5 Standard (lyophilized)	While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910. 1200), this MSDS contains valuable information critical to the safe handling and proper use of the product. This MSDS should be retained and available for employees and other users of this product. While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910. 1200), this MSDS contains valuable information critical to the safe handling and proper use of the product. This MSDS should be retained and available for
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	employees and other users of this product. While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910. 1200), this MSDS contains valuable information critical to the safe handling and proper use of the product. This MSDS should be retained and available for
	Multisciences Streptavidin-HRP (100x) and Substrate Reagent	employees and other users of this product. While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910. 1200), this MSDS contains valuable information critical to the safe handling and proper use of the product. This MSDS should be retained and available for
	Multisciences Stop Solution	employees and other users of this product. While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910. 1200), this MSDS contains valuable information critical to the safe handling and proper use of the product. This MSDS should be retained and available for employees and other users of this product.
Classification of the substance or mixture:	Multisciences anti-Rat CCL5 detect antibody(100X)	Not classified.
	Multisciences Rat CCL5 Standard (lyophilized)	Not classified.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	Not classified.
	Multisciences Streptavidin-HRP (100x) and Substrate Reagent Multisciences Stop Solution	Not classified.
GHS label elements		
Signal word	Multisciences anti-Rat CCL5 detect antibody(100X)	No signal word.
	Multisciences Rat CCL5 Standard (lyophilized)	No signal word.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	No signal word.
	Multisciences Streptavidin-HRP (100x) and Substrate Reagent	No signal word.
	Multisciences Stop Solution	No signal word.
Hazard statements	Multisciences anti-Rat CCL5 detect antibody(100X)	No known significant effects or critical hazards.
	Multisciences Rat CCL5 Standard (lyophilized)	No known significant effects or critical hazards.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	No known significant effects or critical hazards.
	Multisciences Streptavidin-HRP (100x) and Substrate Reagent	No known significant effects or critical hazards.
	Multisciences Stop Solution	No known significant effects or critical hazards.
Precautionary statements General	Multisciences anti-Rat CCL5 detect antibody(100X)	Not applicable.
	Multisciences Rat CCL5 Standard (lyophilized)	Not applicable.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	Not applicable.
	Multisciences Streptavidin-HRP (100x) and Substrate Reagent	Not applicable.

#### SDS, Multisciences Rat CCL5/RANTES ELISA Kit V1

Not applicable.

Prevention	Multisciences anti-Rat CCL5 detect antibody(100X)	Not applicable.
	Multisciences Rat CCL5 Standard (lyophilized)	Not applicable.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	Not applicable.
	Multisciences Streptavidin-HRP (100x) and Substrate Reagent	Not applicable.
	Multisciences Stop Solution	Not applicable.
Response	Multisciences anti-Rat CCL5 detect antibody(100X)	Not applicable.
	Multisciences Rat CCL5 Standard (lyophilized)	Not applicable.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	Not applicable.
	Multisciences Streptavidin-HRP (100x) and Substrate Reagent	Not applicable.
	Multisciences Stop Solution	Not applicable.
Storage	Multisciences anti-Rat CCL5 detect antibody(100X)	Not applicable.
	Multisciences Rat CCL5 Standard (lyophilized)	Not applicable.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	Not applicable.
	Multisciences Streptavidin-HRP (100x) and Substrate Reagent	Not applicable.
	Multisciences Stop Solution	Not applicable.
Disposal	Multisciences anti-Rat CCL5 detect antibody(100X)	Not applicable.
	Multisciences Rat CCL5 Standard (lyophilized)	Not applicable.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	Not applicable.
	Multisciences Streptavidin-HRP (100x) and Substrate Reagent	Not applicable.
	Multisciences Stop Solution	Not applicable.
Supplemental label elements	Multisciences anti-Rat CCL5 detect antibody(100X)	None known.
	Multisciences Rat CCL5 Standard (lyophilized)	None known.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	None known.
	Multisciences Streptavidin-HRP (100x) and Substrate Reagent	None known.
	Multisciences Stop Solution	None known.
Hazards not otherwise classified	Multisciences anti-Rat CCL5 detect antibody(100X)	None known.
	Multisciences Rat CCL5 Standard (lyophilized)	None known.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	None known.
	Multisciences Streptavidin-HRP (100x) and Substrate Reagent	None known.
	Multisciences Stop Solution	None known.

Multisciences Stop Solution

# Section 3. Composition/information on ingredients

Substance/mixture: Mixture	
Ingredient name	%
Multisciences Rat CCL5 Standard	99.9-100

CAS number

Any concentration shown as a range is to protect confidentiality or is due to batch variation. There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section. Occupational exposure limits, if available, are listed in Section 8.

#### Section 4. First aid measures

Eye contact

Description of necessary first aid measures

Multisciences anti-Rat CCL5 detect antibody(100X)

Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.

Multisciences Rat CCL5 Standard (lyophilized)

Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses.

	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer) Multisciences Streptavidin-HRP (100x) and	Get medical attention if irritation occurs. Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs. Immediately flush eyes with plenty of water, occasionally lifting the
	Substrate Reagent	upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
	Multisciences Stop Solution	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
Inhalation	Multisciences anti-Rat CCL5 detect antibody(100X)	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
	Multisciences Rat CCL5 Standard (lyophilized)	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer) Multisciences Streptavidin-HRP (100x) and Substrate Reagent Multisciences Stop Solution	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
Skin contact	Multisciences anti-Rat CCL5 detect antibody(100X)	Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
	Multisciences Rat CCL5 Standard (lyophilized)	Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
	Multisciences PBS Buffer with Tween 20 (Assay,	Flush contaminated skin with plenty of water. Remove contaminated
	Diluent or Washing buffer)	clothing and shoes. Get medical attention if symptoms occur.
	Multisciences Streptavidin-HRP (100x) and Substrate Reagent	Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
	Multisciences Stop Solution	Flush contaminated skin with plenty of water. Remove contaminated
		clothing and shoes. Get medical attention if symptoms occur.
Ingestion	Multisciences anti-Rat CCL5 detect antibody(100X)	Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personal. Cet medical attortion is (unplaced accurrent)
	Multisciences Rat CCL5 Standard (lyophilized)	medical personnel. Get medical attention if symptoms occur. Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
	Multisciences Streptavidin-HRP (100x) and Substrate Reagent	Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
	Multisciences Stop Solution	Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

Over-exposure signs/symptoms		
Eye contact	Multisciences anti-Rat CCL5 detect antibody(100X)	No specific data.
	Multisciences Rat CCL5 Standard (lyophilized)	No specific data.
	Multisciences PBS Buffer with Tween 20 (Assay,	No specific data.
	Diluent or Washing buffer) Multisciences Streptavidin-HRP (100x) and Substrate Reagent	No specific data.
	Multisciences Stop Solution	No specific data.
Inhalation	Multisciences anti-Rat CCL5 detect antibody(100X)	No specific data.
	Multisciences Rat CCL5 Standard (lyophilized)	No specific data.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	No specific data.
	Multisciences Streptavidin-HRP (100x) and Substrate Reagent	No specific data.
	Multisciences Stop Solution	No specific data.
Skin contact	Multisciences anti-Rat CCL5 detect antibody(100X)	No specific data.
	Multisciences Rat CCL5 Standard (lyophilized)	No specific data.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	No specific data.
	Multisciences Streptavidin-HRP (100x) and Substrate Reagent	No specific data.
	Multisciences Stop Solution	No specific data.
Ingestion	Multisciences anti-Rat CCL5 detect antibody(100X)	No specific data.
ingestion	Multisciences Rat CCL5 Standard (lyophilized)	No specific data.
	Multisciences PBS Buffer with Tween 20 (Assay,	No specific data.
	Diluent or Washing buffer)	
	Multisciences Streptavidin-HRP (100x) and	No specific data.
	Substrate Reagent Multisciences Stop Solution	No specific data.

Indication of immediate medical attention and special treatment needed, if necessary, see toxicological information (Section 11)

Notes to physician	Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments	No specific treatment
Protection of first-aiders	No action shall be taken involving any personal risk or without suitable training.

# Section 5. Fire-fighting measures

Multisciences anti-Rat CCL5 detect antibody(100X)	Use an extinguishing agent suitable for the surrounding fire.
Multisciences Rat CCL5 Standard (lyophilized)	Use an extinguishing agent suitable for the surrounding fire.
Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	Use an extinguishing agent suitable for the surrounding fire.
Multisciences Streptavidin-HRP (100x) and Substrate Reagent	Use an extinguishing agent suitable for the surrounding fire.
Multisciences Stop Solution	Use an extinguishing agent suitable for the surrounding fire.
Multisciences anti-Rat CCL5 detect antibody(100X)	None known.
Multisciences Rat CCL5 Standard (lyophilized)	None known.
Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	None known.
Multisciences Streptavidin-HRP (100x) and Substrate Reagent	None known.
Multisciences Stop Solution	None known.
	Multisciences Rat CCL5 Standard (lyophilized) Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer) Multisciences Streptavidin-HRP (100x) and Substrate Reagent Multisciences Stop Solution Multisciences anti-Rat CCL5 detect antibody(100X) Multisciences Rat CCL5 Standard (lyophilized) Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer) Multisciences Streptavidin-HRP (100x) and

### SDS, Multisciences Rat CCL5/RANTES ELISA Kit V1

		联码主视
Specific hazards arising from the chemical	Multisciences anti-Rat CCL5 detect antibody(100X)	In a fire or if heated, a pressure increase will occur and the container may burst.
	Multisciences Rat CCL5 Standard (lyophilized)	In a fire or if heated, a pressure increase will occur and the container
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	may burst. In a fire or if heated, a pressure increase will occur and the container may burst.
	Multisciences Streptavidin-HRP (100x) and Substrate Reagent	In a fire or if heated, a pressure increase will occur and the container may burst.
	Multisciences Stop Solution	In a fire or if heated, a pressure increase will occur and the container may burst.
Hazardous thermal decomposition products	Multisciences anti-Rat CCL5 detect antibody(100X)	No specific data.
	Multisciences Rat CCL5 Standard (lyophilized)	No specific data.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	No specific data.
	Multisciences Streptavidin-HRP (100x) and Substrate Reagent	No specific data.
	Multisciences Stop Solution	No specific data.
Special protective actions for fire-fighters	Multisciences anti-Rat CCL5 detect antibody(100X)	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
U U	Multisciences Rat CCL5 Standard (lyophilized)	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	any personal risk or without suitable training. Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving
	Multisciences Streptavidin-HRP (100x) and Substrate Reagent	any personal risk or without suitable training. Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal rick or without suitable training.
	Multisciences Stop Solution	any personal risk or without suitable training. Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
Special protective equipment for fire-fighters	Multisciences anti-Rat CCL5 detect antibody(100X)	Fire-fighters should wear appropriate protective equipment and self- contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.
	Multisciences Rat CCL5 Standard (lyophilized)	Fire-fighters should wear appropriate protective equipment and self- contained breathing apparatus (SCBA) with a full face-piece
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	operated in positive pressure mode. Fire-fighters should wear appropriate protective equipment and self- contained breathing apparatus (SCBA) with a full face-piece
	Multisciences Streptavidin-HRP (100x) and Substrate Reagent	operated in positive pressure mode. Fire-fighters should wear appropriate protective equipment and self- contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.
	Multisciences Stop Solution	Fire-fighters should wear appropriate protective equipment and self- contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.
Section 6. Accidental rele	ease measures	
Personal precautions, protective	equipment and emergency procedures	
For non-emergency personnel	÷	rsonal risk or without suitable training. Evacuate surrounding areas. onnel from entering. Do not touch or walk through spilled material. Put oment.
For emergency responders		with the spillage, take note of any information in Section 8 on suitable
Environmental precautions	Avoid dispersal of spilled material and ru	formation in "For non- emergency personnel". noff and contact with soil, waterways, drains and sewers. Inform the used environmental pollution (sewers, waterways, soil or air).

relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

Methods and materials for containment	and cleaning up
Small spill	Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
Large spill	Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

# Section 7. Handling and storage

Precautions for safe handling		
Protective measures	Multisciences anti-Rat CCL5 detect antibody(100X)	Put on appropriate personal protective equipment (see Section 8). Put on appropriate personal protective equipment (see Section 8).
	Multisciences Rat CCL5 Standard (lyophilized) Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer) Multisciences Streptavidin-HRP (100x) and Substrate Reagent Multisciences Stop Solution	<ul> <li>Put on appropriate personal protective equipment (see Section</li> <li>8). Put on appropriate personal protective equipment (see Section</li> <li>8). Put on appropriate personal protective equipment (see Section</li> <li>8). Put on appropriate personal protective equipment (see Section 8).</li> <li>Put on appropriate personal protective equipment (see Section</li> <li>8). Put on appropriate personal protective equipment (see Section</li> <li>8). Put on appropriate personal protective equipment (see Section</li> <li>8). Put on appropriate personal protective equipment (see Section</li> <li>8). Put on appropriate personal protective equipment (see Section</li> <li>8). Put on appropriate personal protective equipment (see Section</li> <li>8). Put on appropriate personal protective equipment (see Section</li> </ul>
Advice on general occupational hygiene	Multisciences anti-Rat CCL5 detect antibody(100X)	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See
	Multisciences Rat CCL5 Standard (lyophilized)	also Section 8 for additional information on hygiene measures. Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	also Section 8 for additional information on hygiene measures. Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See
	Multisciences Streptavidin-HRP (100x) and Substrate Reagent	also Section 8 for additional information on hygiene measures. Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See
	Multisciences Stop Solution	also Section 8 for additional information on hygiene measures. Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
Conditions for safe storage including any incompatibilities	Multisciences anti-Rat CCL5 detect antibody(100X)	Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. Store in accordance with local regulations. Store in
	Multisciences Rat CCL5 Standard (lyophilized)	original container protected from direct sunlight in a dry, Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry,

# Section 8. Exposure controls/personal protection

Control parameters Occupational exposure limits None

Appropriate engineering controls	Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
Environmental exposure controls	Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.
Individual protection measures	
Hygiene measures	Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
Eye/face protection	Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side- shields.
Skin protection	
Hand protection	Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.
Body protection	Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Other skin protection	Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Respiratory protection	Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

# Section 9. Physical and chemical properties

# Section 11. Toxicological information

Information on toxicological effects Acute toxicity: Not available. Irritation/Corrosion: Not available. Sensitization: Not available. Mutagenicity: Not available. Carcinogenicity: Not available. Reproductive toxicity: Not available. Teratogenicity: Not available. Specific target organ toxicity (single exposure): Not available. Specific target organ toxicity (repeated exposure): Not available. Aspiration hazard: Not available. Information on the likely routes of exposure: Not available.

#### Potential acute health effects Eye contact: Not available. Inhalation: Not available. Skin contact: Not available. Ingestion: Not available.

#### Symptoms related to the physical, chemical and toxicological characteristics

Eye contact: Not available. Inhalation: Not available. Skin contact: Not available. Ingestion: Not available.

Delayed and immediate effects and also chronic effects from short and long term exposure					
Short term exposure: Not available.					
Potential immediate effects: Not availab	ble.				
Potential delayed effects: Not available.					
Long term exposure: Not available.					
Potential immediate effects: Not availab	ble.				
Potential delayed effects: Not available.					
Potential chronic health effects:					
General: Not available.					
Carcinogenicity: Not available.					
Mutagenicity: Not available.					
Teratogenicity: Not available.					
Developmental effects: Not available.					
Fertility effects: Not available.					
Numerical measures of toxicity Acute to	xicity estimates: Not available.				
Interactive effects: Not available.					
Other information: Not available.					
Section 12. Ecological information					
Toxicity: Not available.					
Persistence and degradability: Not avail	able.				
Bioaccumulative potential: Not available					
Mobility in soil					
Soil/water partition: coefficient (Koc)	Multisciences anti-Rat CCL5 detect antibody(100X)	Not available.			
( )	Multisciences Rat CCL5 Standard (lyophilized)	Not available.			
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	Not available.			
	Multisciences Streptavidin-HRP (100x) and Substrate Reagent	Not available.			
	Multisciences Stop Solution	Not available.			

Mobility: Not available.

Other adverse effects: No known significant effects or critical hazards.

Section 13. Disposal considerations

#### SDS, Multisciences Rat CCL5/RANTES ELISA Kit V1

Disposal methods: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

# Section 14. Transport information

UN number UN proper shipping name	DOT Classification Not available. Not available.	TDG Classification Not available. Not available.	Mexico Classification Not available. Not available.	ADR/RID Not available. Not available.	IMDG Not available. Not available.	IATA Not available. Not available.
Packing group	-	-	-	-	-	-
