

SAFETY DATA SHEET

Multisciences Prostaglandin E2/PGE2 Competitive ELISA Kit

Section 1. Identification

GHS product identifier Code: Multisciences Prostaglandin E2/PGE2 Competitive ELISA Kit, EK1314

Other means of identification: Not available

Trade name: Prostaglandin E2/PGE2 Competitive ELISA Kit

Supplier/Manufacturer 3F, Building B, 36 Xiang Mao Road, Gongshu District, Hangzhou, Zhejiang Province, China.

In case of emergency: Multisciences: 400-6721-600

Section 2. Hazards identification

OSHA/HCS status:	Multisciences anti-Prostaglandin E2/PGE2 antibody(lyophilized)	While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910. 1200), this MSDS contains valuable information critical to the safe handling and proper use of the product. This MSDS should be retained and available for employees and other users of this product.
	Multisciences Prostaglandin E2/PGE2 Standard (lyophilized)	While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910. 1200), this MSDS contains valuable information critical to the safe handling and proper use of the product. This MSDS should be retained and available for employees and other users of this product.
	Multisciences Prostaglandin E2-biotin conjugate Standard (lyophilized)	While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910. 1200), this MSDS contains valuable information critical to the safe handling and proper use of the product. This MSDS should be retained and available for employees and other users of this product.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910. 1200), this MSDS contains valuable information critical to the safe handling and proper use of the product. This MSDS should be retained and available for employees and other users of this product.
	Multisciences Streptavidin-HRP (lyophilized) and Substrate Reagent	While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910. 1200), this MSDS contains valuable information critical to the safe handling and proper use of the product. This MSDS should be retained and available for employees and other users of this product.
	Multisciences Stop Solution	While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910. 1200), this MSDS contains valuable information critical to the safe handling and proper use of the product. This MSDS should be retained and available for employees and other users of this product.
Classification of the substance or mixture:	Multisciences anti-Prostaglandin E2/PGE2 antibody(lyophilized)	Not classified.
	Multisciences Prostaglandin E2/PGE2 Standard (lyophilized)	Not classified.
	Multisciences Prostaglandin E2-biotin conjugate Standard (lyophilized)	Not classified.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	Not classified.
	Multisciences Streptavidin-HRP (lyophilized) and Substrate Reagent	Not classified.
	Multisciences Stop Solution	Not classified.
GHS label elements		
Signal word	Multisciences anti-Prostaglandin E2/PGE2 antibody(lyophilized)	No signal word.
	Multisciences Prostaglandin E2/PGE2 Standard (lyophilized)	No signal word.
	Multisciences Prostaglandin E2-biotin conjugate Standard (lyophilized)	No signal word.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	No signal word.
	Multisciences Streptavidin-HRP (lyophilized) and Substrate Reagent	No signal word.
	Multisciences Stop Solution	No signal word.
Hazard statements	Multisciences anti-Prostaglandin E2/PGE2 antibody(lyophilized)	No known significant effects or critical hazards.
	Multisciences Prostaglandin E2/PGE2 Standard (lyophilized)	No known significant effects or critical hazards.
	Multisciences Prostaglandin E2-biotin conjugate Standard (lyophilized)	No known significant effects or critical hazards.

	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	No known significant effects or critical hazards.
	Multisciences Streptavidin-HRP (lyophilized) and Substrate Reagent	No known significant effects or critical hazards.
	Multisciences Stop Solution	No known significant effects or critical hazards.
Precautionary statements		
General	Multisciences anti-Prostaglandin E2/PGE2 antibody(lyophilized)	Not applicable.
	Multisciences Prostaglandin E2/PGE2 Standard (lyophilized)	Not applicable.
	Multisciences Prostaglandin E2-biotin conjugate Standard (lyophilized)	Not applicable.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	Not applicable.
	Multisciences Streptavidin-HRP (lyophilized) and Substrate Reagent	Not applicable.
	Multisciences Stop Solution	Not applicable.
Prevention	Multisciences anti-Prostaglandin E2/PGE2 antibody(lyophilized)	Not applicable.
	Multisciences Prostaglandin E2/PGE2 Standard (lyophilized)	Not applicable.
	Multisciences Prostaglandin E2-biotin conjugate Standard (lyophilized)	Not applicable.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	Not applicable.
	Multisciences Streptavidin-HRP (lyophilized) and Substrate Reagent	Not applicable.
	Multisciences Stop Solution	Not applicable.
Response	Multisciences anti-Prostaglandin E2/PGE2 antibody(lyophilized)	Not applicable.
	Multisciences Prostaglandin E2/PGE2 Standard (lyophilized)	Not applicable.
	Multisciences Prostaglandin E2-biotin conjugate Standard (lyophilized)	Not applicable.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	Not applicable.
	Multisciences Streptavidin-HRP (lyophilized) and Substrate Reagent	Not applicable.
	Multisciences Stop Solution	Not applicable.
Storage	Multisciences anti-Prostaglandin E2/PGE2 antibody(lyophilized)	Not applicable.
	Multisciences Prostaglandin E2/PGE2 Standard (lyophilized)	Not applicable.
	Multisciences Prostaglandin E2-biotin conjugate Standard (lyophilized)	Not applicable.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	Not applicable.
	Multisciences Streptavidin-HRP (lyophilized) and Substrate Reagent	Not applicable.
	Multisciences Stop Solution	Not applicable.
Disposal	Multisciences anti-Prostaglandin E2/PGE2 antibody(lyophilized)	Not applicable.
	Multisciences Prostaglandin E2/PGE2 Standard (lyophilized)	Not applicable.
	Multisciences Prostaglandin E2-biotin conjugate Standard (lyophilized)	Not applicable.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	Not applicable.
	Multisciences Streptavidin-HRP (lyophilized) and Substrate Reagent	Not applicable.
	Multisciences Stop Solution	Not applicable.
Supplemental label elements	Multisciences anti-Prostaglandin E2/PGE2 antibody(lyophilized)	None known.
	Multisciences Prostaglandin E2/PGE2 Standard (lyophilized)	None known.
	Multisciences Prostaglandin E2-biotin conjugate Standard (lyophilized)	None known.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	None known.
	Multisciences Streptavidin-HRP (lyophilized) and Substrate Reagent	None known.

Ingestion	Multisciences anti-Prostaglandin E2/PGE2 antibody(lyophilized)	Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
	Multisciences Prostaglandin E2/PGE2 Standard (lyophilized)	Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
	Multisciences Prostaglandin E2-biotin conjugate Standard (lyophilized)	Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
	Multisciences Streptavidin-HRP (lyophilized) and Substrate Reagent	Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
	Multisciences Stop Solution	Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
Most important symptoms/effects, acute and delayed Potential acute health effects		
Eye contact	Multisciences anti-Prostaglandin E2/PGE2 antibody(lyophilized)	No known significant effects or critical hazards.
	Multisciences Prostaglandin E2/PGE2 Standard (lyophilized)	No known significant effects or critical hazards.
	Multisciences Prostaglandin E2-biotin conjugate Standard (lyophilized)	No known significant effects or critical hazards.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	No known significant effects or critical hazards.
	Multisciences Streptavidin-HRP (lyophilized) and Substrate Reagent	No known significant effects or critical hazards.
	Multisciences Stop Solution	No known significant effects or critical hazards.
Inhalation	Multisciences anti-Prostaglandin E2/PGE2 antibody(lyophilized)	No known significant effects or critical hazards.
	Multisciences Prostaglandin E2/PGE2 Standard (lyophilized)	No known significant effects or critical hazards.
	Multisciences Prostaglandin E2-biotin conjugate Standard (lyophilized)	No known significant effects or critical hazards.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	No known significant effects or critical hazards.
	Multisciences Streptavidin-HRP (lyophilized) and Substrate Reagent	No known significant effects or critical hazards.
	Multisciences Stop Solution	No known significant effects or critical hazards.
Skin contact	Multisciences anti-Prostaglandin E2/PGE2 antibody(lyophilized)	No known significant effects or critical hazards.
	Multisciences Prostaglandin E2/PGE2 Standard (lyophilized)	No known significant effects or critical hazards.
	Multisciences Prostaglandin E2-biotin conjugate Standard (lyophilized)	No known significant effects or critical hazards.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	No known significant effects or critical hazards.
	Multisciences Streptavidin-HRP (lyophilized) and Substrate Reagent	No known significant effects or critical hazards.
	Multisciences Stop Solution	No known significant effects or critical hazards.
Ingestion	Multisciences anti-Prostaglandin E2/PGE2 antibody(lyophilized)	No known significant effects or critical hazards.
	Multisciences Prostaglandin E2/PGE2 Standard (lyophilized)	No known significant effects or critical hazards.
	Multisciences Prostaglandin E2-biotin conjugate Standard (lyophilized)	No known significant effects or critical hazards.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	No known significant effects or critical hazards.
	Multisciences Streptavidin-HRP (lyophilized) and Substrate Reagent	No known significant effects or critical hazards.
	Multisciences Stop Solution	No known significant effects or critical hazards.
Over-exposure signs/symptoms		

Eye contact	Multisciences anti-Prostaglandin E2/PGE2 antibody(lyophilized)	No specific data.
	Multisciences Prostaglandin E2/PGE2 Standard (lyophilized)	No specific data.
	Multisciences Prostaglandin E2-biotin conjugate Standard (lyophilized)	No specific data.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	No specific data.
	Multisciences Streptavidin-HRP (lyophilized) and Substrate Reagent	No specific data.
	Multisciences Stop Solution	No specific data.

Inhalation	Multisciences anti-Prostaglandin E2/PGE2 antibody(lyophilized)	No specific data.
	Multisciences Prostaglandin E2/PGE2 Standard (lyophilized)	No specific data.
	Multisciences Prostaglandin E2-biotin conjugate Standard (lyophilized)	No specific data.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	No specific data.
	Multisciences Streptavidin-HRP (lyophilized) and Substrate Reagent	No specific data.
	Multisciences Stop Solution	No specific data.

Skin contact	Multisciences anti-Prostaglandin E2/PGE2 antibody(lyophilized)	No specific data.
	Multisciences Prostaglandin E2/PGE2 Standard (lyophilized)	No specific data.
	Multisciences Prostaglandin E2-biotin conjugate Standard (lyophilized)	No specific data.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	No specific data.
	Multisciences Streptavidin-HRP (lyophilized) and Substrate Reagent	No specific data.
	Multisciences Stop Solution	No specific data.

Ingestion	Multisciences anti-Prostaglandin E2/PGE2 antibody(lyophilized)	No specific data.
	Multisciences Prostaglandin E2/PGE2 Standard (lyophilized)	No specific data.
	Multisciences Prostaglandin E2-biotin conjugate Standard (lyophilized)	No specific data.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	No specific data.
	Multisciences Streptavidin-HRP (lyophilized) and Substrate Reagent	No specific data.
	Multisciences Stop Solution	No specific data.

Indication of immediate medical attention and special treatment needed, if necessary, see toxicological information (Section 11)

Notes to physician	Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments	No specific treatment
Protection of first-aiders	No action shall be taken involving any personal risk or without suitable training.

Section 5. Fire-fighting measures

Extinguishing media

Suitable extinguishing media	Multisciences anti-Prostaglandin E2/PGE2 antibody(lyophilized)	Use an extinguishing agent suitable for the surrounding fire.
	Multisciences Prostaglandin E2/PGE2 Standard (lyophilized)	Use an extinguishing agent suitable for the surrounding fire.
	Multisciences Prostaglandin E2-biotin conjugate Standard (lyophilized)	Use an extinguishing agent suitable for the surrounding fire.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	Use an extinguishing agent suitable for the surrounding fire.
	Multisciences Streptavidin-HRP (lyophilized) and Substrate Reagent	Use an extinguishing agent suitable for the surrounding fire.
	Multisciences Stop Solution	Use an extinguishing agent suitable for the surrounding fire.

Unsuitable extinguishing media

Multisciences anti-Prostaglandin E2/PGE2 antibody(lyophilized)	None known.
Multisciences Prostaglandin E2/PGE2 Standard (lyophilized)	None known.
Multisciences Prostaglandin E2-biotin conjugate Standard (lyophilized)	None known.
Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	None known.
Multisciences Streptavidin-HRP (lyophilized) and Substrate Reagent	None known.

	Multisciences Stop Solution	None known.
Specific hazards arising from the chemical	Multisciences anti-Prostaglandin E2/PGE2 antibody(lyophilized)	In a fire or if heated, a pressure increase will occur and the container may burst.
	Multisciences Prostaglandin E2/PGE2 Standard (lyophilized)	In a fire or if heated, a pressure increase will occur and the container may burst.
	Multisciences Prostaglandin E2-biotin conjugate Standard (lyophilized)	In a fire or if heated, a pressure increase will occur and the container may burst.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	In a fire or if heated, a pressure increase will occur and the container may burst.
	Multisciences Streptavidin-HRP (lyophilized) and Substrate Reagent	In a fire or if heated, a pressure increase will occur and the container may burst.
	Multisciences Stop Solution	In a fire or if heated, a pressure increase will occur and the container may burst.
Hazardous thermal decomposition products	Multisciences anti-Prostaglandin E2/PGE2 antibody(lyophilized)	No specific data.
	Multisciences Prostaglandin E2/PGE2 Standard (lyophilized)	No specific data.
	Multisciences Prostaglandin E2-biotin conjugate Standard (lyophilized)	No specific data.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	No specific data.
	Multisciences Streptavidin-HRP (lyophilized) and Substrate Reagent	No specific data.
	Multisciences Stop Solution	No specific data.
Special protective actions for fire-fighters	Multisciences anti-Prostaglandin E2/PGE2 antibody(lyophilized)	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
	Multisciences Prostaglandin E2/PGE2 Standard (lyophilized)	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
	Multisciences Prostaglandin E2-biotin conjugate Standard (lyophilized)	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
	Multisciences Streptavidin-HRP (lyophilized) and Substrate Reagent	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
	Multisciences Stop Solution	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
Special protective equipment for fire-fighters	Multisciences anti-Prostaglandin E2/PGE2 antibody(lyophilized)	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.
	Multisciences Prostaglandin E2/PGE2 Standard (lyophilized)	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.
	Multisciences Prostaglandin E2-biotin conjugate Standard (lyophilized)	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.
	Multisciences Streptavidin-HRP (lyophilized) and Substrate Reagent	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.
	Multisciences Stop Solution	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

For non-emergency personnel

No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.

For emergency responders

If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

Environmental precautions

Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

Methods and materials for containment and cleaning up

Small spill

Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

Large spill

Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Section 7. Handling and storage

Precautions for safe handling

Protective measures

Multisciences anti-Prostaglandin E2/PGE2 antibody(lyophilized)	Put on appropriate personal protective equipment (see Section 8). Put on appropriate personal protective equipment (see Section 8).
Multisciences Prostaglandin E2/PGE2 Standard (lyophilized)	Put on appropriate personal protective equipment (see Section 8). Put on appropriate personal protective equipment (see Section 8).
Multisciences Prostaglandin E2-biotin conjugate Standard (lyophilized)	Put on appropriate personal protective equipment (see Section 8). Put on appropriate personal protective equipment (see Section 8).
Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	Put on appropriate personal protective equipment (see Section 8). Put on appropriate personal protective equipment (see Section 8).
Multisciences Streptavidin-HRP (lyophilized) and Substrate Reagent	Put on appropriate personal protective equipment (see Section 8). Put on appropriate personal protective equipment (see Section 8).
Multisciences Stop Solution	Put on appropriate personal protective equipment (see Section 8). Put on appropriate personal protective equipment (see Section 8).

Advice on general occupational hygiene

Multisciences anti-Prostaglandin E2/PGE2 antibody(lyophilized)	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
Multisciences Prostaglandin E2/PGE2 Standard (lyophilized)	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
Multisciences Prostaglandin E2-biotin conjugate Standard (lyophilized)	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
Multisciences Streptavidin-HRP (lyophilized) and Substrate Reagent	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
Multisciences Stop Solution	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Conditions for safe storage including any incompatibilities

Multisciences anti-Prostaglandin E2/PGE2 antibody(lyophilized)	Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry,
Multisciences Prostaglandin E2/PGE2 Standard (lyophilized)	Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. 	Multisciences Stop Solution	Not available.
Section 10. Stability and reactivity		
Reactivity	Multisciences anti-Prostaglandin E2/PGE2 antibody(lyophilized)	No specific test data related to reactivity available for this product or its ingredients.
	Multisciences Prostaglandin E2/PGE2 Standard (lyophilized)	No specific test data related to reactivity available for this product or its ingredients.
	Multisciences Prostaglandin E2-biotin conjugate Standard (lyophilized)	No specific test data related to reactivity available for this product or its ingredients.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	No specific test data related to reactivity available for this product or its ingredients.

	Multisciences Streptavidin-HRP (lyophilized) and Substrate Reagent	No specific test data related to reactivity available for this product or its ingredients.
	Multisciences Stop Solution	No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	Multisciences anti-Prostaglandin E2/PGE2 antibody(lyophilized)	The product is stable.
	Multisciences Prostaglandin E2/PGE2 Standard (lyophilized)	The product is stable.
	Multisciences Prostaglandin E2-biotin conjugate Standard (lyophilized)	The product is stable.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	The product is stable.
	Multisciences Streptavidin-HRP (lyophilized) and Substrate Reagent	The product is stable.
	Multisciences Stop Solution	The product is stable.
Possibility of hazardous reactions	Multisciences anti-Prostaglandin E2/PGE2 antibody(lyophilized)	Under normal conditions of storage and use, hazardous reactions will not occur. Under normal conditions of storage and use, hazardous reactions will not occur.
	Multisciences Prostaglandin E2/PGE2 Standard (lyophilized)	Under normal conditions of storage and use, hazardous reactions will not occur. Under normal conditions of storage and use, hazardous reactions will not occur.
	Multisciences Prostaglandin E2-biotin conjugate Standard (lyophilized)	Under normal conditions of storage and use, hazardous reactions will not occur. Under normal conditions of storage and use, hazardous reactions will not occur.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	Under normal conditions of storage and use, hazardous reactions will not occur. Under normal conditions of storage and use, hazardous reactions will not occur.
	Multisciences Streptavidin-HRP (lyophilized) and Substrate Reagent	Under normal conditions of storage and use, hazardous reactions will not occur. Under normal conditions of storage and use, hazardous reactions will not occur.
	Multisciences Stop Solution	Under normal conditions of storage and use, hazardous reactions will not occur. Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid	Multisciences anti-Prostaglandin E2/PGE2 antibody(lyophilized)	No specific data.
	Multisciences Prostaglandin E2/PGE2 Standard (lyophilized)	No specific data.
	Multisciences Prostaglandin E2-biotin conjugate Standard (lyophilized)	No specific data.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	No specific data.
	Multisciences Streptavidin-HRP (lyophilized) and Substrate Reagent	No specific data.
	Multisciences Stop Solution	No specific data.
Incompatible materials	Multisciences anti-Prostaglandin E2/PGE2 antibody(lyophilized)	No specific data.
	Multisciences Prostaglandin E2/PGE2 Standard (lyophilized)	No specific data.
	Multisciences Prostaglandin E2-biotin conjugate Standard (lyophilized)	No specific data.
	Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	No specific data.
	Multisciences Streptavidin-HRP (lyophilized) and Substrate Reagent	No specific data.
	Multisciences Stop Solution	No specific data.
Hazardous decomposition products	Multisciences anti-Prostaglandin E2/PGE2 antibody(lyophilized)	Under normal conditions of storage and use, hazardous decomposition products should not be produced. Under normal conditions of storage and use, hazardous decomposition products should not be produced.
	Multisciences Prostaglandin E2/PGE2 Standard (lyophilized)	Under normal conditions of storage and use, hazardous decomposition products should not be produced. Under normal conditions of storage and use, hazardous decomposition products should not be produced.
	Multisciences Prostaglandin E2-biotin conjugate Standard (lyophilized)	Under normal conditions of storage and use, hazardous decomposition products should not be produced. Under normal conditions of storage and use, hazardous decomposition products should not be produced.
	Multisciences PBS Buffer with Tween 20	Under normal conditions of storage and use, hazardous decomposition products should not be produced. Under normal conditions of storage and use, hazardous decomposition products should not be produced.

(Assay, Diluent or Washing buffer)

decomposition products should not be produced. Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Multisciences Streptavidin-HRP (lyophilized) and Substrate Reagent

Under normal conditions of storage and use, hazardous decomposition products should not be produced. Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Multisciences Stop Solution

Under normal conditions of storage and use, hazardous decomposition products should not be produced. Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Section 11. Toxicological information

Information on toxicological effects

Acute toxicity: Not available.

Irritation/Corrosion: Not available.

Sensitization: Not available.

Mutagenicity: Not available.

Carcinogenicity: Not available.

Reproductive toxicity: Not available.

Teratogenicity: Not available.

Specific target organ toxicity (single exposure): Not available.

Specific target organ toxicity (repeated exposure): Not available.

Aspiration hazard: Not available.

Information on the likely routes of exposure: Not available.

Potential acute health effects

Eye contact: Not available.

Inhalation: Not available.

Skin contact: Not available.

Ingestion: Not available.

Symptoms related to the physical, chemical and toxicological characteristics

Eye contact: Not available.

Inhalation: Not available.

Skin contact: Not available.

Ingestion: Not available.

Delayed and immediate effects and also chronic effects from short and long term exposure

Short term exposure: Not available.

Potential immediate effects: Not available.

Potential delayed effects: Not available.

Long term exposure: Not available.

Potential immediate effects: Not available.

Potential delayed effects: Not available.

Potential chronic health effects:

General: Not available.

Carcinogenicity: Not available.

Mutagenicity: Not available.

Teratogenicity: Not available.

Developmental effects: Not available.

Fertility effects: Not available.

Numerical measures of toxicity Acute toxicity estimates: Not available.

Interactive effects: Not available.

Other information: Not available.

Section 12. Ecological information

Toxicity: Not available.

Persistence and degradability: Not available.

Bioaccumulative potential: Not available.

Mobility in soil

Soil/water partition: coefficient (K_{oc})

Multisciences anti-Prostaglandin E2/PGE2 antibody(lyophilized)

Not available.

Multisciences Prostaglandin E2/PGE2 Standard (lyophilized)

Not available.

Multisciences Prostaglandin E2-biotin conjugate Standard (lyophilized)	Not available.
Multisciences PBS Buffer with Tween 20 (Assay, Diluent or Washing buffer)	Not available.
Multisciences Streptavidin-HRP (lyophilized) and Substrate Reagent	Not available.
Multisciences Stop Solution	Not available.

Mobility: Not available.

Other adverse effects: No known significant effects or critical hazards.

Section 13. Disposal considerations

Disposal methods: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Section 14. Transport information

	DOT Classification	TDG Classification	Mexico Classification	ADR/RID	IMDG	IATA
UN number	Not available.	Not available.	Not available.	Not available.	Not available.	Not available.
UN proper shipping name	Not available.	Not available.	Not available.	Not available.	Not available.	Not available.
Packing group	-	-	-	-	-	-
Environmental hazards	No.	No.	No.	No.	No.	No.
Additional information	-	-	-	-	-	-

Special precautions for user: Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code: Not available.

Section 15. Regulatory information

U.S. Federal regulations: TSCA 8(a) CDR Exempt/Partial exemption: Not determined

United States inventory (TSCA 8b): Not determined.

Clean Air Act Section 112 (b) Hazardous Air Pollutants (HAPs): Not listed

Clean Air Act Section 602 Class I Substances: Not listed

Clean Air Act Section 602 Class II Substances: Not listed

DEA List I Chemicals (Precursor Chemicals): Not listed

DEA List II Chemicals (Essential Chemicals): Not listed

SARA 302/304 Composition/information on ingredients

Name	%	EHS	SARA 302 TPQ (lbs)	(gallons)	SARA 304 RQ (lbs)	(gallons)

Section 16. Other information

[Key to abbreviations](#):

ATE = Acute Toxicity Estimate

BCF = Bioconcentration Factor

GHS = Globally Harmonized System of Classification and Labelling of Chemicals

IATA = International Air Transport Association

IBC = Intermediate Bulk Container

IMDG = International Maritime Dangerous Goods

LogPow = logarithm of the octanol/water partition coefficient

MARPOL 73/78 = International Convention for the Prevention of Pollution From Ships, 1973 as modified by the Protocol of 1978.

("Marpol" = marine pollution)

UN = United Nations
